11:15 AM - 1:30 PM MDT

Financial Wellness – Presented by Peter Dunn aka Pete The Planner

Research has shown that financial stress exceeds both job and relationship stress for your employees. This stress not only takes a toll on them personally, but can also impact their performance at work. Learning about money management doesn't have to be a tedious, boring exercise. Pete's Money School aims to bring a light-hearted approach to serious financial topics.

Please **join us** for this fun and informative session on Tuesday, September 19. Peter Dunn a.k.a Pete the Planner® will be here in person to discuss how Pete's Money School can impact your employees' financial lives.

Peter Dunn is an award-winning financial mind, USA TODAY columnist and the author of ten books.

Employee Surveillance and Cyber Security – How to Protect Your Company – presented by Danielle Urban, Attorney and Law, Fisher Phillips

From employee negligence to outside hackers, every week brings news of cybersecurity threats and challenges for businesses. In this discussion, we'll talk about the changing legal landscape, cybersecurity laws, and expectations for businesses and what you can do to protect your business.

**This presentation will provide 1 hour of SHRM CE.*
