Moving from Convenience to Security by John Griffith, Owner, TeamLogic IT of South Charlotte

- What is Data Security?
- Email fraud/Phishing Scams – how they work, examples.
- Malware and Ransomware – how they work, examples.
- A change in mindset is required for us to be secure.

Combating the Insider Threat by Adam Bridgers (CIPP/US), Attorney, Fisher Phillips

- Types of security threats employees can pose to companies;
- Tools available to assess your company's potential exposure to insider threats;
- Best practices to implement to protect your organization from potential cyber-attacks; and
- Recommendations for policies and practices that can help to protect your company from the loss of confidential and proprietary information.

Reserve your spot by registering with Steve Melton, CIC CLU at meltons@centralcarolina.com or 704-574-2991.
