12:00 PM - 1:00 PM EST

Numerous issues arise in the school environment relating to separated or divorced parents. Who should sign the enrollment agreement? Who has the right to make decisions? Can one parent require that the school not communicate with the other parent? What records and information must be made available to each? What are the school's rights and obligations when the parents become disruptive to the school environment and overly demanding? We will cover each of these issues and provide guidance on navigating these difficult issues.
