ABOUT WILC

The WILC committee is comprised of partners, associates, and staff from our offices around the nation. WILC has been charged with several important missions. First and foremost, WILC focuses on recruiting, developing and retaining women attorneys and fostering female leadership within the firm. WILC seeks to

foster mentor relationships among women attorneys and encourages the sponsorship of female attorneys to assist in their development as leaders both within and outside of the firm. WILC looks critically at the advancement of women outside the firm and seeks to spearhead programs and projects geared towards that goal. The committee promotes business development by and for women by hosting and supporting various women-focused events and programs, and encourages firm participation in bar organizations and other groups with a similar mission of promoting the advancement of women in the law and society.
