8:00 AM - 10:00 AM

30

Now that 30 states and the District of Columbia have legalized marijuana in some form, including Nevada, employers must evaluate potential workplace issues and take steps to ensure a productive and safe workforce. Between federal laws, state laws, safety regulations and the current administration's stand on marijuana laws, there is a lot that employers need to know.

Fisher Phillips invites you to attend our next Breakfast Briefing that will address:

- The legal climate of marijuana in the United States
- Accommodating marijuana in the workplace vs. not accommodating – what are the pitfalls?
- Whether your company should accommodate marijuana in the workplace, and if so, how to implement

This program – tailored to owners, HR professionals and managers – will navigate the legal minefield of legalized marijuana to help identify the best employment practices for your company.
